DETAILED ACTION

The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group Art Unit 2616.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-2 are allowed over the prior art of record.

Regarding claim 1, the prior art of record discloses systems for handling different formats, receiving, recording and reproduction, conversion between, as necessary, allows for selection by user's of desired output even detection of inputted video and determining format by the system and select either to convert or not as necessary, such as based on the display system,

but, the prior art of record fails to teach, disclose or fairly suggest the combination as recited in claim 1, the apparatus comprising:

- a video reproduction means;
- an output signal formation portion that serves as
- first signal formation means for forming an input signal into a first output signal based on a progressive system and that serves as
- second signal formation means for forming an input signal into a second output signal based on an interlaced system;
- reproduction operating and stop means for actuating and stopping reproduction;
- outputting either the first or the second signals to a TV receiving means connected to the reproduction means;

wherein the reproduction apparatus comprises:

Art Unit: 2616

- a microcomputer that controls the operation of the video reproduction apparatus;
- input operation means for displaying an operation menu on a screen of the TV and for setting the input signal to the formation means in accordance with a type of the TV receiver as a first output signal or the second output signal, by performing an input operation based on the display of the operation menu as to whether the TV receiver is based on the progressive or interlaced system, and
- if the reproduction stop operation means is operated the output signal formation portion is controller to function as the second signal formation means (being the interlaced system).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
